Professional Goal

Data Science student with a strong interest in full-stack web development and Machine Learning. Proficient in JavaScript and PHP, with hands-on experience in building dynamic, data-driven web applications and integrating Python-based ML solutions to deliver personalized user experiences based on user behavior and needs.

Tech Stack

Frontend: HTML, CSS, Bootstrap, JavaScript

Backend: PHP, REST API Integration

Database: MySQL

Machine Learning: Python, NumPy, Pandas

Tools: VS Code, Google Colab, XAMPP, Git/Github

Education

Inspiria Knowledge Campus | Siliguri | West Bengal

2024 - Present

Bachelors of Science In Data Science

SGPA: 8.29 (3rd Semester)

Higher Secondary Education

2023

School: Siliguri Model High School, Siliguri, West Bengal

Percentage: 82.6

Secondary Education

2021

School: Siliguri Model High School, Siliguri, West Bengal

Percentage: 89.6

Projects

SocialSphere

Built a full-stack social media web application inspired by Facebook, featuring secure user authentication, profile management, posts, likes, comments, and interactive engagement features. Implemented dynamic page routing for seamless navigation between user profiles and integrated backend functionalities for efficient data handling and personalized user interactions.

[PHP, MySQL, JavaScript]

Handwriting to Text

Developed a Machine Learning-based application that converts handwritten text from images into editable digital text using neural networks and image processing techniques. Implemented preprocessing methods for image enhancement and improved text recognition accuracy.

[Python, JavaScript]

Certifications

Python Skill Up - Issued By GeekForGeeks

CyberSecurity – Issued By Skill India
